EXPERIENCE

Launch School, Remote

October 2021 - Present

- Studied and practiced core concepts of JavaScript, HTML/CSS, Object Oriented Programming, Unit Testing, Relational Databases, and Network Foundations.
- Deployed small networked applications.

Orca Bay Foods, Seattle — *Senior Account Manager*

January 2019 - October 2021

- Handled wholesale and end-user accounts nationwide with 2020 sales totaling over \$4.4M, surpassing sales goal of \$3M.
- Managed inventory and production schedule to ensure order fulfillment while keeping customers aware of seasonal challenges that affected supply.
- Implemented personal Python tool to calculate monthly order quantities for production inputs, reducing waste and increasing purchasing accuracy.

PROJECTS

[Coffee Bag](#) — Interactive Record of a User's Coffee Brewing (Javascript, Pug, CSS, Express, Postgres)

- Created database-backed web app for home baristas to keep record of coffee purchased and brewed.
- Implemented user authentication with hashed passwords, session persistence, Postgres database.
- Working on refactoring using a MERN stack plus Redux.

[Waxer Web](#) — Band Website (JavaScript, Pug, CSS, Express, Heroku)

- Built responsive, basic HTML landing page in the style of the early Internet.

EDUCATION

University of Washington, Seattle — *B.A. Economics and Germanics*

September 2013 - June 2017

- Studied the intricacies of macroeconomics and its global factors and actors.
- Analyzed, expounded on, and waxed poetic about Germanic literature and history.
